

# Wireless Temperature/Humidity Sensor

The tattletale<sup>®</sup> wireless **Temperature/Humidity Sensor** is ideal for monitoring the temperature and relative humidity (RH%) of homes, apartments, RV's, town-homes, and commercial properties.

- The sensor is programmed and monitored in real time through our state of the art cloud-based Dashboard.
- Relative Humidity (RH) %  
Default Trip Point: 68% (presence of black mold)
- Temperature parameters:  
35-100°/1.7-37.8°C
- Sensor can be placed up to 300 feet away from the tattletale base unit.
- AAA batteries included.

What do you want to protect?<sup>®</sup>

#### Specifications:

L x W x H:	96 x 60 x 20 mm (3.6 x 2.4 x 0.79 in)
Weight:	62g (2.22 oz)
Humidity Range:	5%-95%
Humidity Resolution:	1%
Temp. Unit:	°F (°C)
Temp. Outdoor Range:	-22°F (-30°C) to 140°F (60°C)
Temp. Resolution:	0.2°F (0.1°C)
RF Frequency:	433 MHz
Range:	300 Feet
Transmission:	Every 60 Seconds
Channel Number:	1-10
Batteries:	2xAAA (included)
